

Rejuvi Acne Treatment

Rejuvi has developed revolutionary products for the treatment of acne. Rejuvi Acne Treatment utilizes alpha-hydroxy acids, urea peroxide and salicylic acid to effectively cleanse blemished skin and remove the micro-comedones. An over-abundance of male hormones can produce an excess of sebum which can clog pores causing acne and pimples. Rejuvi Acne Treatment effectively inhibits excessive skin hormones with the special combination of organic acids, zinc and vitamins. This anti-androgen approach is Rejuvi's unique feature. This multiple action approach makes Rejuvi Acne Treatment far superior to other available acne treatments.

Treatment Products Required:

1. Rejuvi Normalizing Formula
2. Rejuvi "p" Normalizing Cream
3. Rejuvi Conditioning Formula

Other Products Needed:

1. Rejuvi "f" Facial Wash
2. Rejuvi "r" Skin Refreshener
3. Rejuvi Purifying Mask
4. Rejuvi "h" Skin Healing Gel

Ingredients:

Rejuvi Normalizing Formula:

deionized water, propylene glycol, sodium lactate, sodium citrate, glycolic acid, ethanol, glycerin, urea peroxide, zinc sulphate, tea tree oil.

Rejuvi "p" Normalizing Cream:

deionized water, propylene glycol, glycolic acid, PEG-100 stearate, cetyl alcohol, glyceryl stearate, glycerin, decyl oleate, stearic acid, polysorbate 80, evening primrose oil, urea peroxide, zinc sulphate, pyridoxine hydrochloride.

Rejuvi Conditioning Formula:

deionized water, propylene glycol, SD-40, salicylic acid, zinc sulphate, pyridoxine HCl

Rejuvi Acne Treatment

Treatment Procedures:

1. Cleanse face with Rejuvi "f" Facial Cleanser and then rinse with water.
2. Steam face for 5 minutes.
3. Apply Rejuvi Normalizing Formula Solution to face with cosmetic brush, avoiding eye area. Leave on for 5 to 10 minutes then rinse well.
4. Extract comedones.
5. Tone skin with Rejuvi "r" Skin Refreshener.
6. Mix Rejuvi Purifying Mask with Rejuvi "h" Skin Healing Gel (about 2:1 ratio) until consistency is suitable for mask application, then apply to face and leave on about 10 minutes, then wash off well with water.
7. Mix one teaspoon of Rejuvi "p" Normalizing Cream with a few drops of Rejuvi "r" Skin Refreshener, then apply mixture with a brush.
8. Run high frequency over entire face for 2 to 3 minutes then remove any excess product with dampened cotton pads
9. Complete treatment by applying Rejuvi Conditioning Formula to the entire face and leave on for at least 6 hours without washing.

Home Care Program:

Morning: "g" AHA Serum

Evening: Apply "p" Normalizing Cream (For Open Acne) to entire face except eye area. Use "p" Solution for Acne Skin as 'spot treatment' (only on the pimples area and on the top of "p" Normalizing Cream).

Note: Use Rejuvi "p" Skin Conditioner twice per week in the evening (don't use "p" Normalizing Cream or "p" Solution for Acne Skin)

Rejuvi *Tough* Acne Treatment

Rejuvi *Tough* Acne Treatment is very innovative & effective for treating acne conditions that have not responded to other treatments. This treatment has produced many remarkable results. Always try the regular Rejuvi Acne Treatment first before using this treatment.

Treatment Products Required:

1. Rejuvi Normalizing Formula
2. Rejuvi Fruit Complex #1 or #2 – depending on skin tolerance
3. Rejuvi Conditioning Formula
4. Hydrogen peroxide (3%), available in pharmacy

Other Products Needed:

1. Rejuvi "k" Facial Cleanser
2. Rejuvi "h" Skin Healing Gel
3. Rejuvi Purifying Mask
4. Rejuvi Herbal Mask
5. Rejuvi "r" Skin Refreshener

Ingredients:

Rejuvi Conditioning Formula:

deionized water, propylene glycol, SD-40, zinc sulphate, pyridoxine HCl, salicylic acid.

Rejuvi Normalizing Formula:

Deionized water, propylene glycol, ethanol, sodium lactate, sodium citrate, glycolic acid, glycerin, urea peroxide, zinc sulphate, tea tree oil.

Rejuvi Fruit Complex #1 or #2:

Deionized water, ethanol, polysorbate 60, sodium lactate, sodium citrate, glycolic acid.

Rejuvi *Tough* Acne Treatment

Treatment Procedures:

1. Cleanse face with Rejuvi "k" Facial Cleanser and rinse well.
2. Mix enough Rejuvi "h" Skin Healing Gel with Rejuvi Purifying Mask (about 2:1 ratio) until consistency is appropriate for application, then apply all over face. Use steam over mask (about 5-7 minutes) to help ease extractions
3. Extract comedones with lancet if needed
4. Mix hydrogen peroxide with water (about 1:1 ratio), apply for disinfection.
5. Apply Rejuvi Normalizing Formula over entire face using cotton pads and leave on for 5 to 10 minutes – **do not wash off**
6. Apply Rejuvi Fruit Complex #1 or #2 directly on the acne area & over the Normalizing Formula and leave on for 5 minutes.
7. Rinse face thoroughly with cool water.
8. Gently massage face and neck with Rejuvi "h" Skin Healing Gel.
9. Place dry gauze over face and neck then use high frequency over the gauze. On raised cysts apply high frequency for 3 seconds on each cyst several times
10. Remove gauze – **do not rinse**
11. Mix Rejuvi "h" Skin Healing Gel with Rejuvi Herbal Mask (about 1:1 ratio) and apply to face & leave on for 5-10 minutes – this will relieve redness
12. Remove the mask with warm water then tone the skin with Rejuvi "r" Skin Refresher.
13. Apply Rejuvi Conditioning Formula over face and effected areas – leave on overnight.

Home Care Program:

Morning: *Cleanse with "k" Facial Cleanser & tone with "r" Skin Refresher, then apply "x"-cell Vitamin C Complex and "g" AHA Serum (or "g" AHA Cream if skin is not oily).*

Evening: *Cleanse with "k" Facial Cleanser & tone with "r" Skin Refresher. Apply "a" Night gel & Rejuvi "p" Normalizing Cream over the Night Gel. Use Rejuvi "p" Skin Conditioner every other day under "a" Night Gel.*
